INT. RUSTY'S SHOWROOM - DAY

The two owners of Rusty's, Bill and Andy, together on screen inside their store talking directly to camera promoting their service commercial style. We see them standing in front of different spotless samples of their work implying how good their rust cleaning service is.

BILL

Hi! Do you have rusty pipes or other things that get rusty and need it removed now?

ANDY

If so, come on down to Rusty's Rust Removal for a free quote!

BILL

You may have heard that you can just use white vinegar to remove rust yourself, but what you probably don't know is that white vinegar is cancer causing, okay!

ANDY

Yeah our aunt literally died from cancer cause of all the white vinegar she used.

We see a picture of their aunt on screen smoking a cigarette while hooked up to an oxygen tank.

BILL

That's why we don't use any harsh chemicals. We simply come to you and gently scrape the rust away with our fingernails.

ANDY

That's right, we're not allowed to use power tools anymore after the accident, but fingernails work just as well if not better!.

BILL

So that means no loud tools or horrible smells!

ANDY

The job might take a while but boy it sure is a quiet experience.

CUT TO: INT. CUSTOMERS HOME - NIGHT

We see a customer going to open the fridge in the middle of the night. They flip the light on and get scared after seeing Andy working under the sink.

CUSTOMER  
(sees Andy and jumps back)  
Oh jeez! You're still here??

ANDY  
Yep. Almost done.

CUSTOMER  
(taking a look under the  
sink)  
Wow, this looks amazing! Great  
work!

Customer walks back to bedroom and bumps into Bill leaving through doorway and sees his wife putting her shirt back on. Customer goes to run after Bill but when he gets to front door we see the Rusty's van take off down the street.

BILL  
We are southern California's number  
one rust removal service. But don't  
just take our word for it. We were  
voted number 1 by a handful of ACE  
Hardware dorks.

ANDY  
We offer our services for all kinds  
of rust removal needs.

CUT TO: INT. STRIPPER'S HOME - DAY

STRIPPER  
(talking head, lower  
thirds graphic that says  
she's a local stripper)  
I kept getting UTIs cause my pole  
was super rusty but Bill and Andy  
came over, went in and out and in  
and out and in and out and then  
serviced my stripping pole in less  
than a day!

BILL  
We even help our local friends.

CUT TO: INT. CREMATORIUM - DAY

SHELDON

(talking head, lower  
thirds graphic says he's  
a cremator)

Bill and Andy are great. They give  
me scraped rust they accumulate  
from their work, I pass it off as  
ashes in urns for people, and I  
keep the real ashes for, a little..  
(really creepily)  
..hobby of mine.

CUT TO: INT. JULIA'S HOME - DAY

JULIA

(talking head, lower third  
graphic says she's rust  
powder addict)

Hi my name is Julia, you probably  
know me from the show My Strange  
Addiction. My addiction is snorting  
rust powder. Rusty's enables me to  
maintain my addiction by providing  
me with the rust powder.

(she bends over out of  
frame to do a line of  
rust powder then pops back  
up with her nose now  
brownish orange)

CUT TO: INT. ASHLEY'S HOME - NIGHT

ASHLEY

(wearing rusted chastity  
belt, Bill and Andy go to  
work on it while Ashley's  
parents look on in  
concern)

Okay you guys go easy now..

BILL

Don't worry we know what we're  
doing..

Ashley quickly realizes it feels good and is overcome with  
lust.

ASHLEY

Mom, Dad, get out of here! Now!

ANDY

We're not like other Rust scraping services. Especially not like Sexy Rick's Rust Scraping which tricks illegal immigrant women with long acrylic nails into working for them promising a high wage only to call ICE on them once the job is done.

BILL

That is not what we stand for. Here at Rusty's we provide livable wages for our illegal immigrant women and treat them ethically and humanely in practice.

ANDY

Rusty's makes it a priority to help the homeless as well. That's why we scrape their heroin needles for free. So if that hasn't sold you yet, we're proud to say this service received a ringing endorsement from a very special person.

CUT TO: INT. MAYOR ERIC GARCETTI'S OFFICE - DAY

ERIC GARCETTI

Hello, I'm Los Angeles Mayor Eric Garcetti and I truly believe in helping the homeless. That's why I fully support whatever it is Rusty's is doing for them.

BILL

So please DO NOT call us at the number on the screen. We can't pick up the phone cause our fingers are in chronic excruciating pain and our nerve endings are fried from our palms down to our fingertips.

ANDY

Yeah just come on down and say hi to us in person. But whatever you do, DO NOT try to shake our hands cause of what Bill just said.

BILL & ANDY (CONT'D)

(waving)

Scrape you soon!
